PRESS TOOLS

Maxtron Tooling Technologies

MAXTRON is a tooling partner for all your specialized tooling needs. We have Tool Room Facility to manufacture Precision Plastic Moulds & Progressive Stamping Tools. With more than 15 years of hands on experience in the field, the company will offer High End Plastic Moulds & Sheet Metal Dies at competitive price with quick deliveries. The tools & moulds are designed to produce high precision components on auto mode with un-interrupted production run. Also, while designing we focus on Faster Cycle/ Easy Interchangeability / User Friendly / Easy Maintenance of the tools.

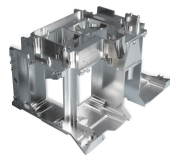

Our Products

Press Tools

Press tools are commonly used in hydraulic, pneumatic, and mechanical presses to produce the sheet metal components in large volumes.

CNC Machined Parts

Having installed CNC Machining Centre / WEDM / EDMs Company will support the part manufacturing for all type of Tooling / Mechanical / Aero Space Industries.

Jigs & Fixtures

We are capable of supplying high accuracy Jigs and Fixtures against the customer design. The complete activity will be carried to ensure Quality at first time.

Maxtron Tooling Technologies is a tooling partner for all your specialized tooling needs. We have Tool Room Facility to manufacture Precision Plastic Moulds & Progressive Stamping Tools. With more than 15 years of hands on experience in the field, the company will offer High End Plastic Moulds & Sheet Metal Dies at competitive price with quick deliveries. The tools & moulds are designed to produce high precision components on auto mode with un-interrupted production run. Also, while designing we focus on Faster Cycle/ Easy Interchangeability / User Friendly / Easy Maintenance of the tools.

We support our customer with Low Budget Proto / Soft Tooling / Tool & Mould Spares/ Tool & Mould Part Machining against the Customer Design Inputs / Special Purpose Machineries/ Jigs & Fixtures To Customer Drgs/ CNC Machined Components/ Plastic & Sheet Metal Parts. We are also intended to support customer with unique design solutions for Plastic Moulds & Progressive Tools. We have use 2D and autocad for designing.

Also, the company is established with small facility for Plastic Part Production & The Sheet Metal Part Supplies. So, customer looking for small batch qty run can avail our facility with tooling support.

So, with the unique experience & the facility **Maxtron Tooling Technologies** is one stop solution for your all engineering needs.

Mission Statement

To provide customers with quality products & services

At optimal cost

On-time delivery

Through continual improvement and innovation.
